2026/1221 - Released media request

In response to your recent request for information regarding;

Please accept or route this request for existing publicly releasable agency-held media concerning: Please provide the existing publicly released video and photograph media package for the Ethan Ives-Griffiths case in Flintshire (death in August 2021; July 2025 verdicts concerning Michael, Kerry and Shannon Ives), including already released/redacted adult interview excerpts, arrest/bodycam excerpts and public photographs. This request is limited to media already approved for public release; it does not seek unrestricted investigation files, private child interviews, medical material or graphic injury/death images. Please route to Corporate Communications if they maintain the released package.

Only the existing publicly released video files and photographs described above. Please prioritize an existing public/redacted media package. No PDF or written reports, logs, CAD printouts, transcripts or standalone audio are requested. Please provide actual video/image files or download links and their expiration dates.
Exclude unlawful sexual imagery, graphic images of deceased children, private child forensic interviews and protected child/victim identifying information. Please release segregable public media and identify any basis for withholding. If another submission method is required, please provide the correct procedure.

Exact source title: This Is One Disturbing Murder Case

Please retain these source references in your response and label released files with the incident/case number so delivered media can be matched accurately. These links identify the underlying incident; I request agency-held media, not the creator's documentary. This is documentary research. No fees or chargeable work are authorized. Please consider a fee waiver, or provide an itemized estimate and obtain my express written approval before incurring any costs.

By virtue of section 21 (1) information accessible to the applicant by other means, I can confirm that the information is already in the public domain and can be accessed at the following website: https://www.youtube.com/watch?v=udJFy795LbE
