2. Enforcement notice cancellations

Please provide the number of speeding enforcement cases that your force recorded as cancelled, rejected or closed with no further action because of each of the following recorded reasons:

Duplicate/cloned plate
Ghost plate
Number plate unreadable
Obstruction to number plate
Partial vehicle registration mark (VRM) - We do not record this as a reject
Possible false plates - We do not record this as a reject

Stolen/cloned plate

Please also include "No number plate" and "Evidential issue" where these can be provided without substantially increasing the work required - We don't record this as a reject

If your force uses different descriptions for these cancellation reasons, please provide the closest existing equivalents and identify the categories used.

Please confirm whether each figure represents an individual enforcement notice cancellation or rejection.

Where possible, please use the original speeding offence date to determine the reporting period, or otherwise confirm whether the figures are based on the date of cancellation/rejection.

I am only requesting aggregated figures available from existing systems and am not asking for a manual review of individual case records.

If any of the requested categories cannot be readily extracted, please provide the remaining information available.

- *Please note that the reports attached were run on all criteria we had available or similar to those listed above. The fact that there is no record on the reports means we have not cancelled or rejected for the reasons listed**
